

Utilizing Census Data

DATA.CENSUS.GOV

Data.census.gov is the primary platform for accessing data and digital content from the U.S. Census Bureau. Data users of all skill levels use data.census.gov to search billions of ACS and other Census Bureau statistics in a customer-driven experience. The site allows you to drill down to some of the most detailed topics/geographies, download data files, and create customized maps.

CENSUS BUSINESS BUILDER

Census Business Builder allows business owners and regional analysts a way to easily use key demographic and economic data in their research for opening new businesses or expanding existing ones. The Small Business Edition presents data for a single type of business, while the Regional Analyst Edition presents data for all sectors of the economy and for a user-defined region made up of one or more areas.

QUICKFACTS

QuickFacts is the best online tool to find interesting facts fast. View charts, maps, and statistics about your community from the ACS and other data sources. Want to know the median household income for your city? The mean travel time to work for your hometown? Access QuickFacts today to get started.

MY CONGRESSIONAL DISTRICT

My Congressional District allows you to access selected statistics about your congressional district. View statistics covering people, workers, housing, education, businesses, and much more. The ACS and County Business Patterns (CBP) power this tool.
